markilux
The best under the sun

So inviting, SO COSY.

As far as solar and wet weather protection are concerned, our highly successful awning models markilux pergola and pergola compact have long made a name for themselves. And in the evening – when the sun has retired for the night – they prolong the summer on your patio in the most pleasant of ways: the markilux lighting options LED Line and/or LED Spots allow you, quite simply, to magically create a cosy, good-mood atmosphere for your favourite outdoor spot. Ideal for enjoyable get-togethers with friends, as a secluded spot for reading or for listening to one's favourite music.

LED Spots attached to the light bar
The spotlights provide perfect contrast lighting in the evening hours. And they can be pivoted and dimmed, of course!

markilux pergola

The awning system on slender posts and with lateral guide tracks provides generous shading with an extension of up to 6 metres.

At the same time, the markilux pergola defies wind and weather up to Beaufort 6 (wind resistance class 3).

markilux pergola compact

The compact, space-saving awning system on slender support posts and with lateral guide tracks, which always keep the cover taut, is ideal for smaller patios. The pergola compact invites you to linger and relax. Attractive and functional solar protection. Anywhere. For anyone.

We are offering a **€ 250 price reduction** on the lighting options of the markilux pergola / pergola compact **from 1 October to 31 December 2020**
