The background is a dark, almost black, gradient. A diagonal line runs from the top right towards the bottom left, creating a sense of depth and movement. In the upper left quadrant, there is a small, bright light source that casts a soft, circular glow and creates a subtle lens flare effect. The overall aesthetic is modern and minimalist.

### markilux shadeplus

The additional vertical blind integrated into the front profile simply blocks out low-lying sun and the glances of inquisitive neighbours.

For all those, who have grandiose plans even if it is windy and wet.

**markilux pergola classic**

When it comes to solar and wet weather protection, the markilux pergola classic ranks top. The awning system on slender posts and with lateral guide tracks provides generous shading with an extension of up to 6 metres. At the same time, the markilux pergola defies wind and weather up to Beaufort 6 (wind resistance class 3). You have every opportunity to make your favourite outdoor place your very own with markilux shadeplus as well as with a multitude of lighting options and different post shapes. No matter how strong the sun shines or the wind blows, with your markilux pergola classic you can enjoy life outdoors at any time.

**Closed full cassette system**  
The cover disappears completely inside the round cassette, Ø 187 mm, and is ideally protected. The only thing that is more impressive than the look itself is the fact that the technology functions perfectly.

**markilux tracfix**  
One of many markilux refinements: the lateral cover guidance system that leaves no gap between the cover and the guide track. Gives an overall better appearance and improves wind stability.

**Coupled pergolas**

For all those who want even more shade: up to five single pergola units can be joined side by side.

**Wonderful, functional and reliable**

Regardless of whatever style you prefer – in the personal combination of awning cover and technology you are bound to find precisely the markilux pergola cubic, that fulfils your requirements perfectly.

# Essentially square. Practically superb.

## markilux pergola cubic

The design of the new markilux pergola cubic was developed entirely in the spirit of the Dessau Bauhaus philosophy. Functional, clear and timeless contouring on the basis of cubist simplification. In addition to the proven solar protection benefits offered by the pergola, this model integrates itself harmoniously and impressively into today's modern architecture and does not just make a big impression with its high-quality workmanship.

**Reduced design language**  
The angular cassette, 200 × 160 mm, offers room for large-scale solar protection up to 600 × 450 cm or 500 × 600 cm, and as coupled unit a whole lot more.

**markilux shadeplus**  
More shade and protection – even when the sun is low in the sky. Optionally solar driven using the markilux sundrive.

## The pinnacle of quality and convenience

Optional extras that provide more shade, light and warmth – discover all the customisation options from page 18, in the showroom of a specialist dealer near you or at [markilux.com](https://www.markilux.com)

Available from summer 2022.

**markilux shadeplus**

Blocks out glare from the sun  
and prying eyes in an instant.

**An “all-round” achievement**

The square, compact cassette, 125 x 125 mm,  
protects the awning cover all round.

# mx \_ pergola compact

## Dependable. Anywhere. For anyone.

### markilux pergola compact

The pergola compact unites the graceful shape of the classic pergola with the latest in product design and the most advanced technology. The compact, space-saving awning system on slender support posts and with lateral guide tracks, which always keep the cover taut, is ideal for smaller patios. The markilux pergola compact invites you to lounge and take it easy. Attractive and functional solar protection. Anywhere. For anyone.

#### Always in the best light

Highlighted with LED Spots attached to the cassette or LED Line in the cassette, on the guide tracks and / or in the light bar guarantee endless hours of pleasure outdoors – even long after the sun has set.

**markilux shadeplus**

The vertical protection against sun and prying eyes – up to 230 cm in height – creates a private room outdoors with its own special ambience.

**markilux sundrive**

An integrated solar module can drive the shadeplus motor in the markilux pergola classic / cubic. When the awning is extended, the front profile and the guide tracks finish perfectly flush with one another.

**markilux infrared heater**

Feel the warmth in an instant and enjoy the evening outside for even longer. Either as stand-alone unit (1400 Watt) or installed under your awning (2500 Watt, the latter optionally dimmable in three stages).

MX\_pergola classic | MX\_pergola cubic | MX\_pergola compact Options

**Coupled awnings**

Depending on the model, up to three awnings can be joined together offering even more shade.

**Telescopic post**

For better water drainage, the front post of the markilux pergola can be lowered in a flash between 20 and 40 cm depending on the size. On request operated by motor.

**LED Line**

Light for reading or informal get-togethers, optionally in the guide tracks and/or in the cover support tube, turns your night into day.

**Square posts**

As an alternative to round posts, square ones fulfil the desire for clean straight lines.

**Ballast boxes**

Give your markilux pergola reliable stability when fitting the front posts to foundations is not possible or desired.

**Stainless steel crank**

Bring the adjustable posts to the desired height in no time at all. Optionally operated by motor.

**LED Spots attached to the light bar**

The spotlights provide perfect contrast lighting in the evening hours. And they can be pivoted and dimmed, of course!

#### Slender appearance

Design reduced to the essence.  
The cover safely tucked away.

#### Well thought through

Water drainage from the cover via the  
integral gutter and support posts is assured  
from a very low pitch of only 5°.

#### Attractive protection majestically full of fresh air

A waterproof awning cover leaves you perfectly prepared for a comfortable and relaxed  
season – al fresco. Allow your markilux specialist dealer to give you professional advice.

Awning Cover Fabrics, Awning Colours,  
Operation and Technical Specification

#### Self-cleaning effect

Water droplets pick up dirt particles and run off the awning cover taking the dirt with them (the awning must be set at a pitch of at least 14 degrees), ensuring you can enjoy your beautiful fabric for a long time to come.

#### Bonded awning covers

Panel joints bonded together ultrasonically ensure a consistent, unobtrusive appearance. Their excellent resistance to water, light and fluctuations in temperature ensures that the service life of the cover is extended substantially.

#### Light and weather resistance and resistance to fading

High-tech yarns dyed right to the core and the high-grade snc finish developed in house guarantee the most stunning shade in which to relax.

#### One collection, endless ideas

Choose your own favourite pattern from a number of different colour families. When making your selection allow yourself to be inspired, enthused and advised by a markilux specialist dealer near you ...

## The most beautiful fabric between heaven and earth.

### markilux awning covers

The colour and quality of the awning fabric are what help make the ambience on your patio something special. Colour nuances, patterns and textures succeed in creating that uniquely special effect by virtue of their brightness and hue. As a leading manufacturer of high-grade awning fabrics with 100 years of experience in the manufacture of textiles, markilux offers an unparalleled variety. The markilux textile design team is constantly developing new patterns in line with the latest trends, which are nevertheless characterised by their timeless appeal.
